Ever wonder what they do when you're not around?

SCOUT85 by Motorola is an indoor Wi-Fi HD Camera which allows you to keep an eye on your pet from anywhere. Motorola Scout camera's with Wi-Fi connectivity operate via a secure cloud service called Hubble. Installation of the camera takes only a few minutes thanks to the plug and play functionality of the camera and the easy Hubble set-up wizard. The SCOUT85 Camera and the free Hubble application on your internet connected smartphone, tablet or PC allows you to monitor your dog, cat, fish or any other domestic animal from anywhere in the world. This pet monitor enables you to keep them safe and even discover the secret life of your pet. The camera includes motorized pan, tilt and digital zoom function, two-way communication and infrared night vision. The Hubble app features free streaming and smart notifications to your smartphone, tablet or PC. The Video recording function with 'time travel' technology and real-time motion alerts give you peace of mind, wherever you are.
